JOHN MCNAUGHTON ELECTED PRESIDENT OF STUDENTS COUNCIL

Science Gave Majority to Sargent But Arts and Medicine
Turned Tables in Favor of Candidate From
Law—Record Vote Polled

The annual election for the Presidency of the Students' Council took place yesterday. Excitement ran high throughout the whole period of polling and much interest was shown in the outcome of the contest between Messrs. Sargent and McNaughton. The official results are as follows:

	McNaughton.	Sargent.
Medicine	208	67
Science	187	236
Arts and Law	191	63
Total	586	366
Majority	220.	

The attested vote cast was 946, a record one for the University. The classes showed up as follows:

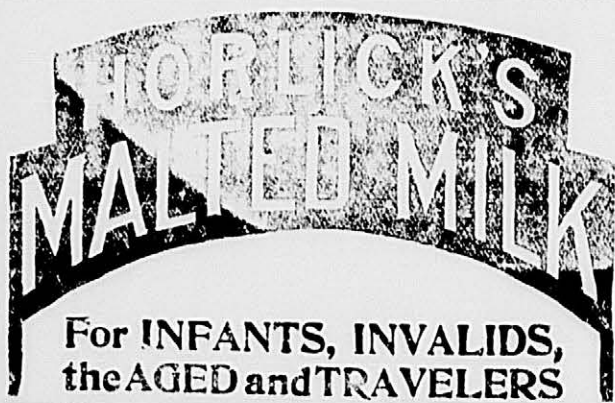

1912-111.	
1913-96	
1914-125	

1915-91
Total 423 — (Record).
Medicine.
1912-33 (a)
1912-18 (b)
1913-50
1914-52
1915-51
1916-60
Total 264
Arts.
1912-40
1913-47
1914-60
1915-61
Total 208
Law 51
259
Grand Total 446.
The vote is regarded as heavy in all departments.

SUCCESSFUL CANDIDATE THANKS HIS ELECTORS

Mr. McNaughton Regrets
Withdrawal of Third
Candidate

"Naturally I feel somewhat elated over the result, as such a large majority was wholly unexpected," said Mr. McNaughton last night when interviewed by the Daily. "Owing to the withdrawal of the third candidate, it seemed almost impossible to make any forecast regarding the outcome with even the slightest degree of accuracy. Mr. Sargent has every reason to be proud of the large vote which he received and which amply attested to his popularity.

"I think it only fair to say that I keenly regretted Mr. Gillmor's withdrawal from the contest, since his participation would unquestionably have aroused even a greater amount of interest than was manifested yesterday.

"You might kindly express, through the Daily, my sincerest thanks to all the students for the marked degree of confidence which they have reposed

in me by my election to the highest undergraduate office in the University.

"It is scarcely necessary to add that I hope to discharge its great responsibilities in a manner that will reflect credit not only upon myself and my fellow-students, but above all upon Old McGill."

At the men's dormitory at Oberlin the rule has been laid down that everyone must be in by ten o'clock. This affects eighty men who think that they are capable of taking care of themselves. There's considerable disapproval.

BRILLIANT ADDRESS DISCUSSES ELECTIONS AT SPECIAL LECTURE

Prof. Eve in Usual Happy
Vein Delights Large
Gathering

There was quite a large crowd assembled in the Physics Building last Monday to hear a lecture delivered by Prof. Eve. The lecture was one of the course of Free Public Lectures which have become so popular with the Montreal public. The subject of this lecture was "Electrons" and it proved to be extremely interesting and entertaining.

One rather amusing incident occurred during the evening, when the electricity gave out and the Professor had to proceed in the dark. He had been showing the audience an experiment in which two wires were caused to become red hot and glow in the darkened room. Everything was proceeding nicely, when suddenly the wires burned out with a flash and a sputter. Professor Day, who was assisting the lecturer in his experiment, then attempted evidently to open the switch, but somehow the current was short-circuited, which caused the fuses to blow out with a sputter and roar and of course left everyone in total darkness. This however, did not appear to disturb Professor Eve at all for he continued his lecture in the dark for 5 or 6 minutes until the lights were again available.

During the course of the lecture Professor Eve paid special tribute to Dr. Rutherford and his wonderful work at McGill, explaining how he had detected the presence of a single molecule. Later on in the lecture Professor Eve showed some very interesting experiments on the subject of radio-activity. At the same time he managed to have a little fun at the audience's expense. He had been illustrating the power of radium by means of an electroscope, when turning to an audience he asked if they wished to see him finish the experiment. There was applause and cries of "Yes, go on," from the audience.

"Well," remarked the Professor, "you will have a long wait, for it would take at least one thousand million years to complete it."

He endeavored to give his audience some conception of the size of an electron by a number of examples, one of which was that sixteen copper cents contained over a billion times a billion copper atoms all dashing about with a velocity of sixty miles a second; and that the ratio of an

THE DEMONSTRATION AT ELECTRIC CLUB 'MAKES A BIG HIT

Scientific Lecture Variegated
by Touches of Rare
Humour

The demonstration in High Tension Work, given before the Electric Club by Andrew McNaughton and Owen Haigh was eminently successful in every way. The tests were conducted in the new High Tension Laboratory before an audience which taxed the capacity of the room. Effective voltages up to 300,000 volts were obtained, which means a maximum voltage of 450,000 volts. Tests were run on lightning arresters of the horn-gap, electrolytic and multigap types. The demonstration also dealt with the effect of governing voltage by means of resistance and reaction; the effect of increase in high and low tension windings of transformers and between low tension and ground, and tests of insulators of various types. Slides of flash-overs were also shown. The subject was handled with marked ability throughout.

LORD LISTER MEMORIAL

Several important topics for discussion came up at the meeting of the Medical Faculty on Saturday. Among these was the question of erecting some suitable memorial in honor of the late Lord Lister, the eminent surgeon and scientist. In this connection it was suggested that a bust of Lord Lister should be placed in the Medical Building. This suggestion was favorably considered by a large number of the members, but it was decided to take no definite steps in the matter beyond appointing a committee to consider the proposal and to bring in a report at an early date. The committee is composed of Drs. F. J. Shepherd and F. G. Roddick.

ARTS UNDERGRADS ELECTIONS

Elections for the Arts Undergraduate Society Executive will be held on Friday. Frank Common '13, and Henry Morgan '13 are the candidates for the Presidency. A complete list of the candidates for the offices will be published in to-morrow's Daily.

LARGE ATHLETIC GATHERING HEARS CLOWING REPORTS FROM THREE BIG CLUBS

PROPOSED AMENDMENT STRONGLY OPPOSED

Surplus in Football, Hockey and Track — Elections Harmonious and Satisfactory—Plans Outlined
Pennsylvania Meet in April

On Monday evening the three major clubs held their annual meetings together. This innovation in the system pursued in the past met with every success as the event testified. A large crowd was present, practically filling the Union Hall. Unprecedented enthusiasm was characteristic of the proceedings from beginning to end. Each and every member of the large gathering listened with the keenest interest to reports which proved epoch-making.

The executive of the football club took the seats of vantage first. As Mr. Dan P. Gillmor came forward to address the meeting he was greeted with a mighty roar of applause, which subsided only after a considerable interval of time had elapsed.

The first report was that of the Secretary, Mr. Graham Ross. Mr. Ross' report laid emphasis on the fact that intercollegiate football was gaining in prestige and in quality and that its future was assured. He also pointed out that during the past season the citizens of Montreal had displayed unusual interest in intercollegiate games, particularly those between the Univ. of Toronto and McGill. Mr. Ross concluded by complimenting the Intermediates on their improved showing. That the R.M.C. were to be represented by a second team in the Intercollegiate Intermediate League was ample proof of this fact.

The report of Mr. "Andie" Davis, Manager of the Club, outlined the financial affairs of the season concluding with the announcement that the club could report a surplus of \$1525. This was greeted with loud and protracted applause. Such a surplus marks an entirely new epoch in athletics at the University. The report of Mr. Davis was clear and comprehensive, stating the main features of the season. It was adopted by a unanimous vote which included a special vote of thanks to the manager himself.

The football elections went off smoothly and quickly. The following officers were elected:

Hon. Pres.—George MacDonald.
Hon.—Thomas—Alan Johnston.
Pres.—Graham Ross.
Vice-Pres.—A. Turnbull.
Sec'y.—Byrt Wilkes.
Treas.—Sink McEwenne.
Committee—H. Rogers, B. Read, Geo. Leding and D. P. Gillmor.

General new business took the form of a resolution opposing the proposed change in the constitution of the Students' Council in the manner of athletic representation. After some pointed discussion PRO and CON the meeting decided by an overwhelming majority to oppose the amendment.

The hockey club was next on the programme. Mr. Sargent and his executive took the platform amidst much enthusiasm. Secretary Paisley outlined the work of the year in a brief but comprehensive manner. Manager Roberts then arose amidst a perfect tumult of applause and reviewed the season throughout. His remarks were punctuated by round after round of enthusiastic applause, amply attesting to the general popularity which his services for the University have eminently justified. The season reported a surplus of over \$200.

Hon.—I res.—Dr. Adams.
Pres.—A. Thompson.
Vice-Pres.—J. Forman.
Sec.—J. Ryley.
Treas.—D. Mann.

The Track Club meeting opened with a general report by the President, Mr. W. E. G. Murray. The season was discussed in its main features and general recommendations containing training table and early summer training were made. The proposed entry in the Pennsylvania (Continued on page 2.)

(Continued from page 1.)

Meet was touched upon and highly
recommended. Secretary Smith's re-
port explained recent changes in the
Intercollegiate agreement and laid
emphasis on the significance of the
success which attended the efforts of
the Macdonald College Track men
this season. Treasurer Hollinshead read
the financial report which showed a
slight surplus for the first time in
the history of the club. Captain
Dowie paid a special tribute to the
work of Tom Graydon who devoted
so much time and energy to the in-
terests of the Club.

THE STUDENTS' COUNCIL ELECT

In electing a new president of the Students' Council the undergraduate body this year found itself placed in a rather unusual and singularly fortunate predicament. The candidates were both men so eminently qualified for the contested post that either choice was of necessity an excellent one. In matters of policy the candidates were agreed upon everything except a few points of relatively minor interest. Their respective platforms both included a number of progressive and even radical measures, the more important of which we feel assured have the warm support of the student body. Among these measures is the proposal for the establishment of a universal fee, a question which is of vital and immediate concern to each and every undergraduate. We can now regard this proposal as the official policy of the undergraduate executive, and in our opinion, it will, if carried out, provide a satisfactory solution for the many financial difficulties which have so long impeded and harassed the successful operation of almost every branch of student activity.

In regard to the personnel of the new council we can only state that the selections that have been made so far constitute, in our opinion, a series of glowing tributes to the sound judgment of the various undergraduate societies which are responsible.

To those who are retiring from office there should be a special sense of satisfaction in the assurance that the work which they are about to relinquish will find itself in safe and competent hands.

We extend our heartiest congratulations to the President to show the same executive capacity and unfailing administrative ability which has thus far characterized the regime of the present Students' Council.

ATHLETIC ASSOC. CONSTITUTION WILL PROBABLY BE ALTERED

System of Council Representation to be Changed—Other
Matters for Discussion on Wednesday

In the event of the adoption of the proposed amendment of the Students' Society which substitutes the President of the Athletic Association and two other representatives from that body, in place of the Presidents of the Track, Football and Hockey Clubs to represent Athletics on the Students' Council, the following amendment to Article IV, Section 1 is submitted to be known as subsection "C."

"Of a first and of a second Vice-President, who shall be elected in the same manner as the President. Only such men as have won their First Grade Big "M" shall be eligible for these offices."

This will necessitate the change from "Vice-President" to "Third Vice-President" in subsection "C" of the proposed amendment to the constitution of the Athletic Association.

Also Article V, Section 2 must be amended to read:

"Of a First and of a Second Vice-President who shall be representatives from the Athletic Association on the Students' Council."

As the following proposed amendments and additions to the constitution of the Athletic Association will be moved at the Annual Meeting of that body to be held on the 7th of March, it is deemed advisable to draw the attention of the Student body to them in order that they may have given the matter consideration

before being called upon to vote on the subject:

Paragraph 3 to read:
"It shall recommend what hours shall be granted to each club to use the grounds, shall decide all cases of disqualification, of reinstatement of any student and shall approve all constitutions and amendments thereto of the affiliated clubs."

Paragraph 4 to read:
"It shall see that all constitutions are being enforced and that the Athletic affairs are being conducted satisfactorily."

Paragraph 5, insert: "and to the Students' Council" after the word "corporation" in the second line.

Paragraph 7 to read:
"The minute book of the Association shall be placed in the hands of the Secretary of the Students' Council after each meeting of the Athletic Association, who shall be elected by the Executive from among their own number, at a meeting held the last week in February (c) of the Presidents of the several clubs composing the Association."

Paragraph 2:
"Members of the Executive shall hold office until their successors are appointed."

Paragraph 3:
"The Executive shall act as an Athletics Committee of the Students' Council and shall act under the supervision of that body."

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price \$2.00 per acre.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
Deputy of the Minister of the Interior.

ANNUAL MEETING OF THE STUDENTS SOCIETY THIS MORNING AT 11 O'CLOCK IN THE UNION. IMPORTANT BUSINESS. ALL UP!

ANNUAL Y. M. C. A. LANTERN LECTURE

K. W. Dowie Will Deliver Address at Strathcona Hall

Each year McGill sends a delegation of men to the Student Conference at Northfield, Mass., where several hundred college men from the Eastern States and Canada gather in convention for ten days. This year the conference will be held from June 21st to 30th. The McGill Y. M. C. A. possesses a famous and historic collection of lantern slides showing scenes of the conference, its buildings, campus, athletics and humour, which is shown every spring before college closes. These slides have been used in many places outside McGill for they form a unique collection which has been accumulating for many years. Last week they were sent down to Dalhousie College, Halifax, and in other years have been shown at Macdonald College and St. Andrew.

The annual "talk" describing the conference will be given by K. W. Dowie, Sci. '12, in the Reading Room, Strathcona Hall, on Sunday evening next after Church services, and will be illustrated by these slides. It will incidentally describe how McGill trimmed Toronto in baseball and gained distinction by having its banner highest on the bonfire. All students are invited to attend.

Guest: "Look here; this mirror is so frightfully dirty that I can't see my face in it."
Hotel servant: "It strikes me you ought to be thankful for that, instead of making trouble about it."

COLGATE "SOPHS" DINE

The sophomore class of Colgate University held its Mercury banquet last week at Stanwix Hall, Rome, N. Y. All the members of the class cautiously found their way to the station about 7.15 o'clock in the evening and waited for a blind special train. A few minutes later the special drew out, and the members of the class were told of their destination by the Mercury Committee. Mercury is a battered old statue of the winged god that used to stand on the Colgate campus about twenty-

five years ago. One of the classes in the early eighties was displeased with its appearance and stole it for its banquet at that time. Since then Mercury has hidden somewhere in the Bhenango Valley within three miles of Hamilton, and only appears at class banquets. At present the even-numbered classes own it and guard it carefully from its rivals.

The freshmen this year were completely taken by surprise by the sudden departure of the sophs, and were unable to get to Rome in order to break up the banquet and get possession of the much-coveted Mercury.

ANNOUNCEMENTS

McGILL vs. M. A. A. A.

The second annual Boxing, Wrestling and Fencing Tournament between McGill and M. A. A. A. is scheduled for Saturday, March 9th at 8 p.m. in the Union. On their present showing the McGill boys bid fair to repeat their win of last year but it is a safe prophecy that win or lose, the M. A. A. A. team will put up a fight worth seeing. The admission will be moderate. This will be worth seeing.

McGILL UNIVERSITY ORIENTAL SOCIETY.

The next meeting of the Society will be held on Tuesday, March 5, 1912 in the Macdonald Engineering Building, Room 37, at 8 p.m. An address will be given by Charles Lester, Esq., entitled "A Journey Through the Himalayas and the Kashmir Valley" (illustrated). This is Ladies' Night.

MANDOLIN CLUB.

The Club will hold its regular practice this afternoon at Miss Peate's studios. Everybody is requested to be on hand with their music as the next concert is not far off.

MATRICULATION REGULATIONS TO BE MADE MORE RIGID

At the last meeting of the Matriculation Board of the University a number of changes in the matriculation regulations were adopted on the report of a Committee especially appointed to consider the best means of preventing students with inadequate knowledge of the work prescribed for matriculation from obtaining admission to the University. The new regulations are as follows: (1).—Instead of Regulation No. 4: "The matriculation examination may be taken in two parts, but in order to be valid for entrance it must be completed within two years from the date of the first attempt. At least four papers must be written at one time, except (a) in the case of candidates who have passed in that number at the June examination and who wish to take additional papers in the following September, and also (b) in the case of those who are not required to take as many as four papers to complete the examination. Credit will not be given for less than four papers on certificates which may be presented for exemption from the matriculation examination, and no certificates will be accepted for full matriculation which has been obtained under easier conditions than those which are imposed on candidates who are attempting to qualify for entrance by means of the regular university examination.

(The effect of this new regulation is to exclude candidates who may pass only one or two subjects at a time by exacting a minimum in the number of papers for which they will be given credit at any one examination. It also bears out the holders of certificates which cover only a subject or two.

(2).—Regulation 7 has been changed to read as follows:

"In order to pass, a candidate must obtain 40 p. c. of the marks in each subject and 50 p. c. of the aggregate for the subjects taken, however many and at whatever time."

This regulation applies also in the case of candidates who present certificates. (The enforcement of this regulation will exclude candidates who obtain little more than the minimum in each subject. It has frequently happened that students have managed to enter on very low marks, not higher, for instance, than 45 p. c. in the majority of the subjects. Candidates who present certificates must also conform to this regulation.)

(3).—That No. 5 be changed to read as follows:

"Candidates for admission to the Faculties of Arts, Applied Science, Law, Agriculture and the Department of Music who have failed to complete the matriculation requirements will be allowed to enter the first year as conditioned undergraduates provided (a) that they have not failed in more than two papers (which in the Faculty of Applied Science cannot be in the Mathematical section) and (b) that they have obtained at least 25 p. c. in the subjects in which they have failed and 50 p. c. of the aggregate."

This regulation applies also to candidates who seek to satisfy the matriculation requirements by means of certificates granted by other recognized examining bodies.

In order to be admitted to the Faculty of Medicine a candidate must pass in every subject required.

Students conditioned in language must attend a special tutorial class during their first session, for which a fee of \$10.00 is exigible. Any stu-

dent so conditioned who fails to attend this class with regularity will not be allowed to present himself for examination.

(According to this regulation a minimum has been fixed in the subject in which a student fails before he can be conditioned. It also reduces the number of papers in which he can fail before he can be given this standing (hereafter there will be two papers in French and German, as has been the case hitherto in Latin and Greek). Candidates who present certificates also come under this regulation.)

It will be seen that persons who present certificates will be placed on an exact equality with those who take the regular McGill examination, as, of course, should be the case. The general effect of these regulations will be to make it less easy for a certain class of candidates to enter, namely, those who have been in the habit of coming up for one examination after another for a couple of years at least and passing in a few subjects each time, those in which they had formerly passed being held to their credit in the meantime. They will also shut out from the University those who, though they satisfy the requirements as regards the number of subjects to be passed, have no knowledge whatever, or a very inadequate knowledge, of one or two subjects.

These regulations will go into effect in 1913.

It is possible that there may be some changes made in the method of conducting local examinations in June each year. A committee has been appointed to look into the whole question to consider whether or not a minimum number of candidates (say three) should make application before an examination will be granted in any particular place.

There are likely also to be changes in the history and English requirements in 1913, or at least in 1914. Changes are also likely to be made in some of the texts in Greek, Latin, Physics and Chemistry.

NEW OPERA AT THE PRINCESS

"The Wedding Trip" which has been acclaimed the best comic opera given to the stage by American writers since "Robin Hood," came to the Princess Theatre for a week's engagement commencing Monday evening, March 4th, with the usual Wednesday and Saturday matinees. One of the largest companies on tour this season will be heard in its interpretation. Among the prominent members of which are Christine Neilson, just now enjoying the distinction of being the best soprano at present engaged in light musical work; Louise Berthel, Fritz von Busing, Agnes Williamson, Edward Martindel, Arthur Cunningham, Joseph Phillips, Charles Angelo, George Madison and William Brandt. As its title suggests, the opera has to do with the adventures of a bride and groom, who are separated immediately after the marriage ceremony. The complications that ensue cover three acts of delightful fun, treated as to book and lyrics in the best fashion by Fred de Greasac and Harry B. Smith, and with music in the best style of that most prominent of American composers, Reginald DeKoven. It is declared that the concerted numbers in this opera have never been approached by a composer on this side of the Atlantic, and that the works abounds in musical gems of the first water. Since every member of the chorus has been selected by Mr. DeKoven himself, it is reasonable to presume that he has chosen people who not only have exceptionally good voices to sing his music but whose personal appearance is above criticism. A perfect scenic production and an augmented orchestra will be in evidence.

STRONG MAN TO HEAD ORPHEUM BILL

Paul Conchas, the world famed Military Hercules of the German Emperor, is again the feature of an excellent bill to be offered by the Orpheum Management. Conchas opened his American tour at Hammerstein's Theatre this week, and his second stand in America on his present tour will be the Orpheum.

Kajiya, the famous Two-Brained Japanese is another feature on the bill. This chap writes up-side down, backwards and writes two different subjects at the one time. The audience can give him two things to write about and with the left hand he will write upon one black-board, and with the right on the other, at the same time.

Callaghan and St. George offer one of the neatest acts seen at their theatre in a long time. It is their own original playlet entitled, "The Old Neighborhood." The company, while not a large one, is perfect and this attraction should prove to be

one of the real hits of the bill.

Kate Watson is a comedienne of no mean ability, and holds the important position of second to closing. Miss Watson has made a big name for herself in and around New York and is sure to prove a success in this show.

Ward and Curran, the old timers, present a new version of their funny skit, "The Terrible Judge," and are sure to be a "scream."

Nevina and Gordon will offer a pretty little musical comedy, entitled "Little Miss Manicure."

Max Witt will offer his "Melody Lane Girls" in songs of the past and present.

Adonis and his dog will do some novelty gymnastic work, while the Orpheum Orchestra will play selections of some of the operatic successes.

The Orpheum Graphic will close this very interesting and high class vaudeville bill.

GOLDSMITH'S COMEDY TO BE REPEATED

TWO OTHER PLAYS ALSO TO BE PRESENTED.

Three plays will be presented by the Horniman Company at His Majesty's Theatre this week. "Cupid and the Styx," a comedy by J. Sackville Martin, will be seen for the first time here, preceded by "The Little Stone House," which will be given for the first three nights and the Wednesday matinee.

"Cupid and the Styx" is a merry comedy with two intertwined motives. First, there is the love or cupid motive, depicting how a pretty nurse with bright eyes and a trim figure plays havoc with the hearts of three doctors, who in turn propose, kiss, disengage on being disturbed. Miss Edith Goodall will be seen as the nurse. The second motive shows a playwright so wrapped up in his own importance, despairing of sufficient appreciation and wishing to impress his wife, boasts in a most heroic manner of his intention to cross the mythical river Styx—pretends to commit suicide by taking a safe dose, and in the resultant cures himself and his wife. Another clever character sketch is that of the hospital porter, who is anxious to secure the Government position of public hangman, which he thinks "very easy work—just pulling a bolt and the rope does the rest."

APOLOGY TO THEATRE MANAGERS

We greatly regret that owing to an oversight no editorial announcement of this week's theatrical attractions appeared in last Saturday's issue. We wish to apologize to Managers Judge, Driscoll and Brooks of the Princess, Orpheum and His Majesty's Theatres respectively, and assure them that we will do all in our power to prevent the recurrence of such an error.

FOUND.—A pair of gold rimmed spectacles at the east entrance of the Campus. Apply to the janitor of the Engineering Building.

ANNUAL MEETING OF THE STUDENTS SOCIETY THIS MORNING AT 11 O'CLOCK IN THE UNION. IMPORTANT BUSINESS. ALL UP!

Surprising results are shown by the physical tests of the class of 1915 at Yale. There is an unusual number of men over six feet in height, the measurements ranging from five feet six to six feet five and a tenth inches.

The average age is 19. The present freshman class and the class of 1914 have the same average age, but the 1915 men are three-tenths of an inch taller, and average four pounds heavier. The total strength of 1914 is 994.2 and that of 1915, 968.
